BUSH INDUSTRIES OPENS NEW DISTRIBUTION CENTER

Reno, Nev., Location Extends West Coast Delivery Capabilities, Enables Next-Day Shipping

JAMESTOWN, N.Y., June 15, 2009—Bush Industries, a leading global manufacturer of ready-to-assemble (RTA) and commercial-grade casegoods furniture for home and office, has opened a state-of-the-art distribution center in Reno, Nev., enabling next-day shipping to all ZIP codes in the contiguous United States.

“We have more than six years of experience providing successful delivery options to sellers,” said A. James Garde, Bush Industries’ chief financial officer. “The launch of Bush’s Reno distribution facility is a natural progression of our dedicated customer service efforts. Last year we processed nearly 150,000 direct-to-end-user shipments and well over 10,000 installations.

Built in 2007, Bush’s 85,875 sq. ft Reno center supports 22 docks and offers strategic access to Reno/Tahoe International Airport, rail service and a major cross-country route that connects

Reno/Sparks to Sacramento and San Francisco to the west and Salt Lake City to the east.

The addition of a second U.S. distribution center allows Bush to offer industry-leading, compressed delivery times based on selected service levels.
